

Comms Provider 08

Voice Quality Broadband

Steve Bieniek
FCS VoIP Group
vice-chairman

What are we trying to achieve?

- Define minimum requirements for voice quality broadband
- Assess products and providers against the defined criteria
- Publish a list of products which meet the FCS criteria

What should the standards be based upon?

- Affordability
- Availability
- Achievability

Technical Characteristics

- Speed
- Latency
- Contention
- Resilience

Non Technical Issues are also important:

- Service
